**NATIONAL HARDWARE SHOW® COVID-19 UPDATE**

We have committed to sharing weekly updates with you, no matter how big or small, regarding any possible impact of the COVID-19 virus on the 2020 National Hardware Show.

The [National Hardware Show](#) team remains committed to hosting the Show as planned May 5-7, 2020 at the Las Vegas Convention Center. We are not immune to the global industry disruptions and to date have had some exhibitors indicate that they will not be able to join us for Show. However, the vast majority of those exhibitors are coming from highly impacted countries and amount to less than 3% of our overall Show. We continue to work to actively bring on board great exhibitors and had 23 new companies join the Show in the last week.

Further details about our precautions are available [here](#). Please also refer to the information provided by the [Las Vegas Convention and Visitors Bureau regarding the Las Vegas Convention Center](#) and the [Southern Nevada Health Department](#).
