

# InstaTrim®

The Flexible Trim Solution

Discover how this universal peel and stick trim strip is making trim and caulking projects quick and easy for DIY consumers and saving time and money for building maintenance companies and contractors.

InstaTrim®, flexible trim strips are the solution to many trim, caulk and moulding projects including baseboards, floors, countertops, wall and ceiling corners, toilet base and more. From homeowners to contractors, people love how versatile InstaTrim is and how easy it is to install, with no mess or waste.

The peel and stick application makes installation easy, with simple instructions and no special tools. InstaTrim can be used for home projects, commercial building maintenance and more.

## WINDOWS & DOORS • BASEBOARDS & FLOORS • CEILING & WALL TRIM • KITCHENS & BATHS

### MULTIPLE USES

- Prevent dirt and debris from collecting in gaps
- A mold and mildew resistant barrier against moisture and airflow
- Save energy by sealing drafty windows and doors
- Cover sloppy paint on ceiling and wall corners
- Replace quarter-round on baseboards and floors
- Finish trim on crown molding and wall cabinets
- Keep bacteria and moisture from collecting under a toilet base
