The National Hardware Show® follows the **cubic content rule**, which allows exhibitors to make maximum use of their booth space. Under the cubic content rule, exhibitors may build up to the front of their booths, and up to the maximum allowable height according to booth type as indicated below. *However, anything above the provided drape heights must be finished, neutral and devoid of copy on any wall adjacent to another exhibitor.*

The following maximum height limits will be strictly enforced. No height variances will be granted prior to or on-site at the show. Please plan your booth display and sign structures accordingly. **Maximum allowable height is also directly affected by the ceiling height of your booth area.** The maximum height of a display booth at the back wall, including any form of lighting system, signage, or header shall be:

LINEAR BOOTH MAXIMUM HEIGHT LIMIT = 12 FEET

Bounded by 1 or 2 aisles. Hanging Signs are not permitted in linear booths. It is much more cost effective to floor mount signage with a linear booth height limit of 12 feet. Note: side-drape provided is 3 feet high and the back-drape provided is 8 feet high.

PENINSULA BOOTH MAXIMUM HEIGHT LIMIT = 20 FEET

Bounded by 3 aisles. Exhibit booths must also be at least 20 ft. deep and 20 ft. wide to meet **Show Management's** requirements for hanging signs. Hanging signs in peninsula booths may reach a height limit of 20 ft. to top of sign. Two-sided Signs must be hung 5 ft. from the back wall and the side facing rear of the booth must be clear of copy, logos or other graphics so as not to be an eyesore to neighboring exhibitors. Note: the back-drape provided is 8 feet high.

If you have questions regarding your move-in, please contact **FREEMAN** for more information regarding move-in times and dates at **(888) 508-5054** or ExhibitorSupport@freeman.com.

It is highly recommended that you ship your freight in advance to the warehouse, as warehouse freight is delivered to the Show Floor first and is automatically "on target". Show-site shipments are unloaded on a first-come-first-serve-basis. Please do not schedule any labor until the end of your target window. For example, if your target window is 10:00 AM - 1:00 PM, it is best to request your labor to report to your booth no earlier than 1:00 PM.

Any booth not occupied by **3:00 PM, Monday, January 30, 2023**, will be presumed abandoned. If there is freight in the booth and **Show Management** believes the Exhibitor will be arriving late, then **FREEMAN** will setup to the best of their ability with the information available. If there is no freight in the booth and/or **Show Management** believes the Exhibitor will not participate in the show, the booth will be reassigned. Exhibitors arriving after this time will be given space available and may incur additional costs.

ALL EXHIBITS MUST BE COMPLETELY SET BY 5:00 PM, Monday, January 30, 2023. Although exhibitors may fine tune their booth before show opening on **Tuesday, January 31, 2023**, no shipment will be accepted at any time past **5:00 PM on Monday, January 30, 2023**, or beyond. Absolutely no shipment, equipment or material may be brought onto the Show Floor during Show hours.

- **Merchandise passes.** These are special forms issued by **Show Management**. When properly filled out and signed by the exhibitor, they tell security guards that removal of an item from the exhibit floor is authorized. (Subject to Change)

BASIC SECURITY RECOMMENDATIONS

- By now you should have arranged for insurance coverage to protect your exhibit and product against damage or loss from the time it leaves your premises until it returns
- Exhibitor personnel must wear official Show Exhibitor badges at all times during move-in, Show Days and move-out. Please do not give Exhibitor Badges to anyone other than your full-time employees and remove all badges from the building when you leave on your last day there. Badges left behind are often abused by unauthorized personnel so do not leave them in your booth or discard on the floor
- Unpack product as close to the Show opening as possible. At the close of the Show, we suggest that you stay at your booth until these valuables are repacked
- At the close of business each day, cover all display tables. This establishes a barrier to curiosity seekers and other would-be thieves from selecting such items to steal at a later time
- Place your wastebasket along the aisle at the end of each day to facilitate trash removal
- Treat especially valuable goods such as prototypes as irreplaceable. If they truly are one-of-a-kind, hire your own security guard. *Under no circumstances* should such goods ever be left unattended. Electronic devices are particularly vulnerable to theft
- Remove tapes or discs at night and store them in a safe place. Keep close tabs on personal items (cell phones, purses, laptops, briefcases, etc.)
- Do not put articles of any value in a container marked "**EMPTY STORAGE**", or behind booth
- Shipping cartons should not identify contents. Use coded labels
- Give special considerations to prototypes, irreplaceable and highly valuable articles, or other sensitive items
- Be sure to send copies of Shipping Information, including all tracking numbers with your set-up people so that they know how many pieces should arrive
- Booth staffing plans should take the following into consideration:
 - Who will be at the booth during set-up and dismantling?
 - Will an inventory list be available to check complete delivery during set-up and complete shipment after dismantling?
 - Will you need a security cage?
 - Will you need a private guard?
 - Should you safeguard material in the free storage room during non-Show hours?
 - Does everyone concerned know that nothing of value should be left in containers labeled "**EMPTY**"?
 - Will someone be on duty at least a half-hour before the Show opens? And until Show is closed for the day? Will you schedule rotation to cover lunch breaks, etc.?
 - All of your booth personnel should be advised to wear official Show Badges at all times as a security measure, and to use the official Merchandise Passes when removing items from the exhibit floor
 - DO NOT leave laptop, purses, cell phones, cameras, etc. unattended

- It is essential that exhibitor personnel remain in their exhibit areas until their display materials are secured. All small articles which can be easily picked up should be securely packed before you leave your booth after the Show closes
- During teardown, stay with your exhibit until your empty cartons are delivered and your goods are packed, sealed and properly labeled
- Do not leave material in your booth unlabeled at any time during move-out because many things could happen it may be presumed abandoned; mistaken for trash; or one of your neighboring booths might label it in error!

Don't Leave Your Booth Unattended Until Your Merchandise Is Secure

The best security available is still inadequate and losses will occur, if exhibitors leave merchandise, especially valuable merchandise, unsecured in their booth overnight. Secure all such merchandise at all times during the non-Show hours.

Our objective is to make your show experience as worthwhile and profitable as it can be. Adhering to these simple security recommendations will go a long way to ensure your success!

Immediately report to security, or Show Management, the presence of any unauthorized visitors, or suspicious activity on the show floor.

Show Management can assume no responsibility or liability for loss, damage or theft. That responsibility is yours, and we therefore recommend that you provide your own insurance coverage against all contingencies.
